

## Corrections of typos in *Economic Models of Climate Change: A Critique*

1. In equation (2.2) on page 33, the subscripts  $k$  and  $j$  were mistakenly reversed in the denominator. This equation should read as follows:

$$\eta_{jk} = \frac{\partial \log(x_{ij}^*/x_{ik}^*)}{\partial \log(p_k/p_j)} \quad (2.2)$$

2. On page 64, the 4<sup>th</sup> line after equation (3.4), the text mistakenly says “ $1 - \beta$ ” instead of “ $\beta - 1$ ”. This line should read as follows:

“inflation ratio.” (The ordinary “rate of inflation” is  $\beta - 1$ .) If the good

3. On page 106, 4<sup>th</sup> line from the top, the word “be” should be inserted after the word “may”. The line should read as follows:

this area. It may be recalled that Solow’s seminal article [1957, p. 312]

These are the only typos I know about at this time. Please inform me if you are aware of any others. Thanks.
